

Transportation Network Company – Vehicle Details

This is to be used by any Transportation Network Company (TNC) who wants to affiliate a vehicle with its TNC in Saskatchewan.

Instructions: Incomplete forms will not be processed. Please upload the completed document to:

<https://sgico.sharepoint.com/sites/VehiclesForHireExternal> or
vehiclesforhire@sgi.sk.ca if you are not set up with SharePoint.
1-800-667-8015 ext. 4700

1. Transportation Network Company information		
Company name	SGI customer number	
Email	Province/state	Postal/zip code
Street address	City/town	
Phone	Primary contact	

2. Conditions
1. The TNC is required to advise SGI of any changes in affiliated vehicles. 2. Vehicle information must be submitted to SGI within seven days of the vehicle being authorized. 3. The company is required to report within 14 days if a vehicle's affiliation has been removed. 4. All rideshare vehicles must be actively registered in Class LV. An affiliated vehicle is not allowed to operate with the use of a registration permit (e.g. 24-hour, 8-day, in-transit and breakdown). 5. It is the TNC and registered owner's responsibility to ensure the vehicle is properly registered. 6. Annual vehicle inspections are required regardless of the age of the vehicle. 7. Inspections must be completed by an SGI-certified inspection station and are subject to audit by SGI. 8. Inspection certificates are not required to be submitted at time of registration but should be retained for audit purposes. 9. The company is required to notify SGI of any changes to the company email address. 10. At least two decals will be provided by the rideshare company for all affiliated vehicles to display while engaged in rideshare operations.

Note:

- TNC use does not carry over when a vehicle transfer takes place (i.e. customer transfers plate from one vehicle to another). The TNC must submit this form to SGI to have the TNC use added to the new vehicle.
- Plate replacement and other changes (i.e. vehicle colour, correct make/model, etc.) will not remove the TNC use. The registered owner is required to notify the TNC of any of these changes.
- SGI will notify the rideshare company if it removes a vehicle from TNC affiliation.
- SGI will not notify the rideshare company if a vehicle registration has been cancelled or expires.
- SharePoint will be used to submit all documents. Please contact vehiclesforhire@sgi.sk.ca to gain access to the SharePoint site.
- When a vehicle is approved, the TNC indicator will appear on the registration.
